Dear Sirs,

We wish to inform that, in compliance of the earlier requirements of Clause 36 of the Listing Agreement, we had intimated, vide our letter no.Secy/CL-36/2015 dt.09.11.2015 that, due to excessive rainfall since 8th November,2015,mining activities had been affected resulting in lower power generation in all linked Power Stations.

In terms of Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations,2015, we wish to inform that Neyveli region received a rainfall of around 408mm in 8 hours on 09.11.2015, the highest rainfall since inception of the Company in the year 1956 and there has been almost persistent rain since 8th November,2015 resulting in flooding of mines and suspension of mining operations and lower in power generation. However, maximum possible power generation have been taken up. Necessary action has been taken to make the shortfall in production and power generation to the extent possible. The power generation in Thermal Power Station in Barsingsar, Rajasthan and in Tuticorin power project of NLC Tamilnadu Power Limited, the subsidiary company are operating as usual.

This is for your information and record.

Thanking you,

Yours faithfully,
for Neyveli Lignite Corporation Limited

Company Secretary
